THE BASICS

SECTION 3

10 WORDS TO KNOW

Bull / Bear - A market rising (bull) or falling (bear) over a sustained period

Ticker - A short code for an asset, e.g. VOD for Vodafone or XAUUSD for gold

Spread - The gap between the buy and sell price. A cost on every trade

Leverage - Borrowed exposure that magnifies gains and losses alike

Stop Loss - An order that closes a trade automatically at a set loss

DCA - Investing fixed amounts over time instead of all at once

Diversification - Spreading money across assets so one mistake can't sink you

CPI - The main inflation measure. One of the biggest market movers

ISA - A UK tax-free wrapper for up to £20,000 a year of savings and investments

DYOR - Do your own research. Understand anything before you put money in

WINSIGHTS

HOW MARKETS MOVE

INTEREST RATES ARE THE BIGGEST LEVER. HIGHER RATES TEND TO STRENGTHEN A CURRENCY AND WEIGH ON SHARES, CRYPTO AND GOLD. CUTS TEND TO DO THE OPPOSITE.

INFLATION DRIVES RATES. THAT'S WHY A HOTTER-THAN-EXPECTED CPI PRINT CAN MOVE EVERY MARKET IN SECONDS.

THE US DOLLAR SITS ON ONE SIDE OF MOST FOREX TRADES, AND GOLD IS PRICED IN IT, SO US DATA MATTERS EVEN IF YOU ONLY TRADE THE POUND.

SENTIMENT AND EVENTS: WARS, ELECTIONS AND SHOCKS PUSH MONEY TOWARDS SAFE HAVENS LIKE GOLD AND THE DOLLAR.

MARKETS MOVE ON SURPRISES, NOT NEWS. IT'S THE GAP BETWEEN WHAT WAS EXPECTED AND WHAT HAPPENED THAT COUNTS.

[w]

ONLY RISK WHAT YOU CAN AFFORD TO LOSE

Never invest money you need for bills, money you've borrowed, or money you're trying to win back. Many traders risk just 1-2% of their account on any single trade.

ALWAYS HAVE AN EXIT

Know before you enter where you'd admit you're wrong. A stop loss on every trade, and an invalidation point for every investment, keeps one bad call from becoming a disaster.

[w]

DRIP-FEED, DON'T GUESS

Nobody times the bottom perfectly. Investing a fixed amount regularly (DCA) smooths out your entry price and takes the emotion out of when to buy.

USE YOUR ISA

UK adults can put up to £20,000 a year into ISAs, and everything inside grows free of income and capital gains tax. For most long-term investors, it's the first place to start.

[w]

FIND YOUR PATH

WHICH ONE ARE YOU?

THE INVESTOR

BUILDING WEALTH

Long-term stocks, funds and ISAs. Follow every buy and sell in the Winsights Portfolio, with the thesis behind it, and track your own portfolio alongside it.

THE TRADER

FOREX & GOLD

Daily FX and XAU trade ideas with key levels, the reasoning, and where each idea is wrong. Plus the 8am briefing and daily session breakdowns.

CRYPTO

DIGITAL ASSETS

Crypto market updates, outlooks and key levels, plus spot positions with clear add levels and invalidation.

OR ALL THREE

Most members don't fit in one box. Plenty invest for the long term in an ISA, trade gold on the side and hold some crypto. One membership covers every desk, so you follow what matters to you and mute the rest.

OR JUST STAY INFORMED

You don't have to trade at all. Join to stay on top of the financial world and geopolitics, right to your phone, with every headline broken down into what it means for the markets.
